## *Hydraulic Cutting Head TC065-SC*

Cembre introduces TC065-SC, a new “scissor-action” hydraulic cutting head.

General features:

Max cutting $\Phi$ [mm]	Dimensions [mm]			Weight [kg]
	Length	Height	Width	
65	426	185	105	6.3

**Table 1: Dimensions**

The tool (SAP code 2591870) is supplied as:

- “Scissor-action” hydraulic cutting head TC065-SC with quick automatic coupler
- Carrying case for storing the head

Designed for connection to an hydraulic pump with a working pressure of 700 bar, TC065-SC is compact, easy to handle and suitable for cutting Copper, Aluminium and Telecommunication cables having a maximum overall diameter of 65 mm.

The blades are manufactured from high strength Special Steel, heat treated to ensure a long service life.

The “scissor-action” of the blades provides an open arrangement which, along with the head’s ability to pivot up to 180degrees, offers maximum convenience when cutting running cables.
